Dropped the price to \$13,500. Awesome price for an first class car. Don't be fooled with cars that are priced too cheap. I've had 3 customers buy cars in the 6-8,000 range and then spend 4-6,000 on them getting them to the quality they want. If you want a well prepared car, and care about how it looks, then this is the car for you.
