

Disabled Veteran Race team Building spec 944

Posted by Racing4Vets - 04 Feb 2014 08:42

Hello,

My name is John Vann co-founders and VP of Racing4Vets.

Racing4Vets currently runs kart, auto and off road programs for service-disabled veterans with PTSD, traumatic brain injuries and physical injuries. We provide different levels of race driving, from occupational therapy indoor karting for VA patients to outdoor kart and auto track days for veterans demonstrating the required skills and commitment.

In the Tampa Chapter our Veteran team is building a spec 944 with Chilly Performance www.chillyperformance.com

This Build is in the very beginning and that's why I am reaching out to the spec 944 community. If you are anyone would like to get involved or support in anyway please feel free to contact me directly.

You can also follow the build on Facebook www.facebook.com/racing4vets and at WWW.racing4vets.org

John Vann

What year is the 944? I might have some racing parts that I could donate.

Also, do you have a chapter located in South Carolina?

I can be reached by email at fred at blueoaknetworks dot com
