

In-Car Video Compilation (final version posted)

Posted by Weston - 06 Jan 2010 01:35

Here's a look at the 944-Spec race based on various in-car and roof footage that was copied to Chuck's computer or sent to me... (I posted a draft a while back, but here's the final version)

Vimeo: vimeo.com/6774170

Streetfire: videos.streetfire.net/video/944Spec-2009-NASA_728027.htm

Windows Media: www.rm944.com/events/2009-09-10_12%20Mil...Nationals%20Race.wmv

There were some good battles and exciting moments that you didn't see in the SpeedCast coverage... I think Tim and Lee's wild battle at 9:52 is my favorite short clip. I tried to make good use of all the video we were given, so it jumps around the field a little bit when there's a lot going on. Hopefully the driver names and position indicators will make it easier to follow.

Nice, flows well and easy to follow. Makes me want to get back to racing season... need to build another car first.
