

944 Turbo Race Car Questions

Posted by Feffman - 18 Sep 2012 08:57

Hi All:

As a product of the 1980's the 944T has always been one of those cool cars.

I just sold my Radical SR3 track car and am looking at several choices, one of which is the 944 Turbo (others are Spec Racer Ford and E36 or E46 BMW M3). Please give me an honest assessment of the reliability of the 944T as a track/race car.

Any input is much appreciated.

Feff
